Summary

I am a web developer with experience in creating interactive and optimized websites, specializing in enhancing the functionality and performance of digital platforms. Skilled in collaborating with multidisciplinary teams to achieve objectives and adept at problem-solving. Seeking new challenges that allow me to continue growing professionally and contribute to the success of innovative projects.

Experience

Web Developer

EasyLife Marketing • Madrid, Community of Madrid
04/2024 - Present
At EasyLife Marketing, I had the opportunity to work on a variety of projects that allowed me to enhance my technical and creative skills. I participated in the design and development of interactive websites, using technologies such as HTML, CSS, JavaScript, WordPress, as well as modern plugins and frameworks. I collaborated closely with the marketing team to ensure that each project met business objectives and provided an excellent user experience. Additionally, I implemented customized solutions for clients, improving the functionality and performance of their digital platforms.

Backend Developer

Grupo ConsulTIC • Aguascalientes, Aguascalientes
02/2024 - 07/2024
At Grupo ConsulTIC, my role as a backend developer involved a variety of challenging responsibilities. My main focus within the team was the development and maintenance of the logic and functionality of the servers that supported our applications and systems. Additionally, I collaborated in identifying and resolving technical issues, conducting thorough testing to ensure software quality, and participated in planning and implementing new features and enhancements within the team.

Projects

Psychology Office Website:

[Psicorenga](#)

It was about creating a website from scratch for a psychology office focused on providing services for adults, teenagers, and children. I played the role of Web Developer, responsible for creating an accessible and functional platform for online psychology services. I implemented interactive features and optimized site performance to enhance and facilitate navigation.

Insurance Broker Website:

[Sanchez Camiño & Asociados](#)

It was about creating a website from scratch focused on the insurance area for Companies, Individuals and Independent Professional. I played the role of Web Developer, responsible for designing and developing an interactive and optimized platform for resenting professional services. I implemented customized solutions to improve functionality and user experience, ensuring efficient performance and an intuitive interface.
